

BIOGRAPHY

UNITED STATES AIR FORCE

AMANDA F. LEE

Amanda F. Lee is the Program Coordinator for Operational Graduate Medical Education at the United States Air Force School of Aerospace Medicine, Wright-Patterson Air Force Base, Ohio. She is responsible for the administrative duties that support the selection and operational training of over sixty residents in four medical specialties, preparing them for immediate assignment to operational billets.

Ms. Lee came to Operational Graduate Medical Education from the University of Oklahoma Health Sciences Center, where she spent seventeen years. Prior to her current position, Ms. Lee worked for the Department of Anesthesiology as the Senior Resident Program Coordinator responsible for resident and student medical education programs.

Ms. Lee is certified by the Training Administrators of Graduate Medical Education. She earned an Associate of Science degree in Healthcare Administration from Oklahoma State University, and was awarded her Bachelor of Arts degree in Administrative Leadership from the University of Oklahoma.
